

Directions for making the flash cards.

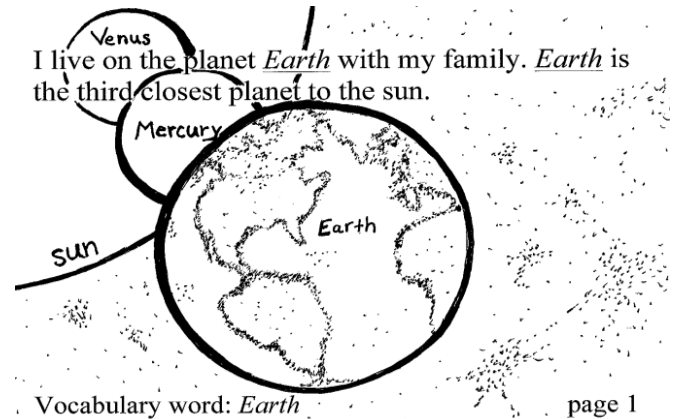

'Me and My World'

Cut on the dotted lines horizontal across and fold on the vertical that go up and down lines.
You can either tape or glue to make the flash card.

Earth

the name of the planet we live on that orbits around the sun

www.sightwordsatagance.com

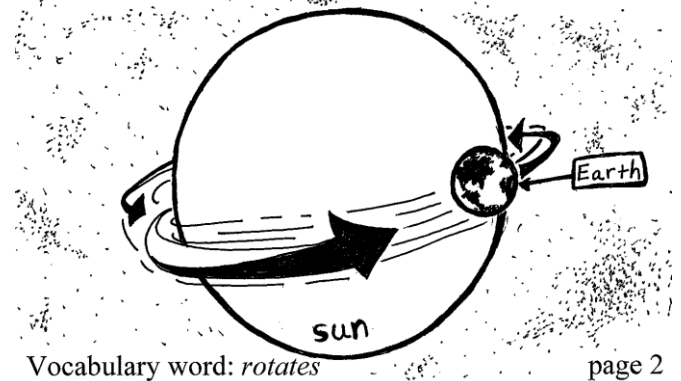

www.sightwordsatagance.com

rotates

movement that goes around in circle

www.sightwordsatagance.com

The Earth is a planet that *rotates* around the sun.

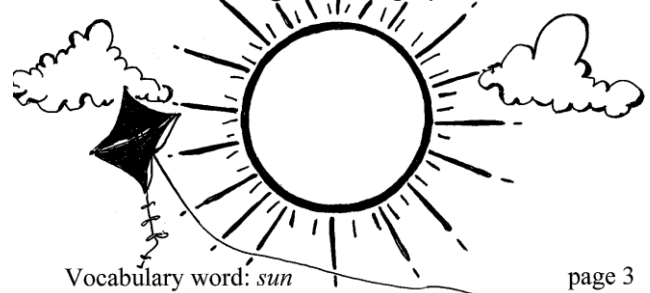

www.sightwordsatagance.com

sun

a big yellow circle in the sky that is a very hot star in outer space that warms the earth

www.sightwordsatagance.com

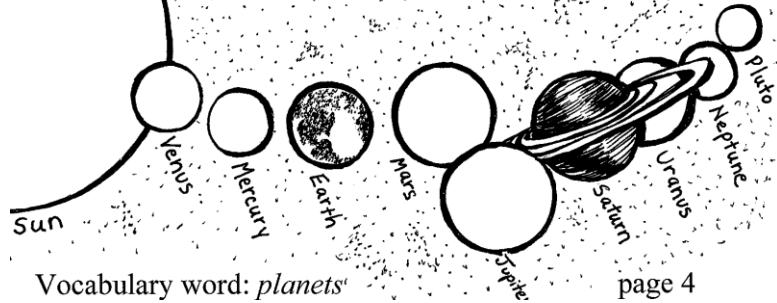

The *sun* is a very hot star that the planets rotate around. It keeps the planet Earth warm, and it keeps me warm so I can go out and play.

planets

a rock in space that is 1,000 miles across, orbits a sun and never been hot like a star and orbits a sun

I can count the planets that rotate around the sun.
There are ____ planets. (Write the number of planets and point to the planet you live on.)

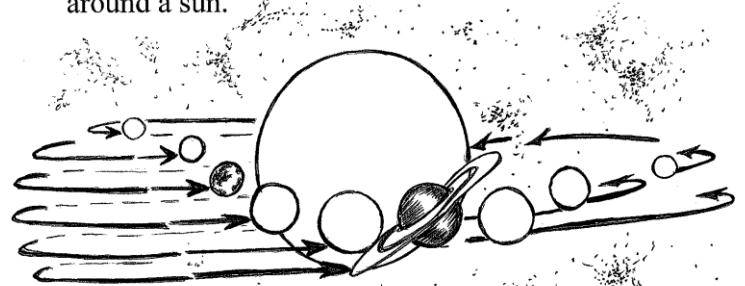

Vocabulary word: planets

page 4

galaxy

are planets and their moons that orbit around a very hot star called a sun

A galaxy is a group of planets that rotate together around a sun.

Vocabulary word: galaxy

page 5

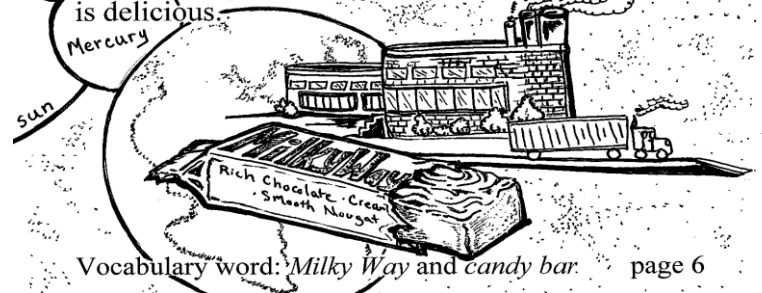

A) Milky Way

is the name of the galaxy that contains the planet Earth that we live on.

B) candy bar

a sweet food combined with chocolate shaped into a rectangle

The galaxy that my family and I live in is called the Venus Milky Way. A chocolate factory named a candy bar the Milky Way here on Earth. It is **not** a galaxy, but it is delicious.

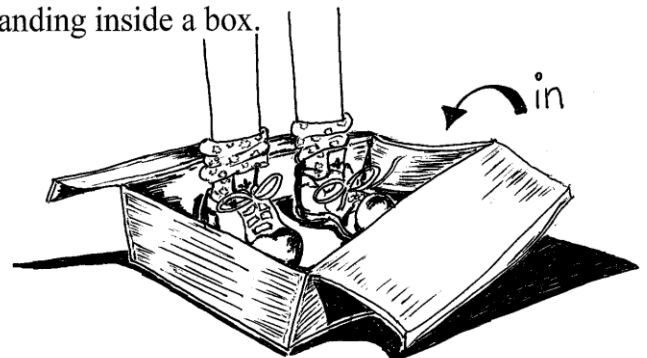

Vocabulary word: Milky Way and candy bar

page 6

in

to be enclosed or surrounded by something else

My family and I live in the Milky Way galaxy. It is like standing inside a box.

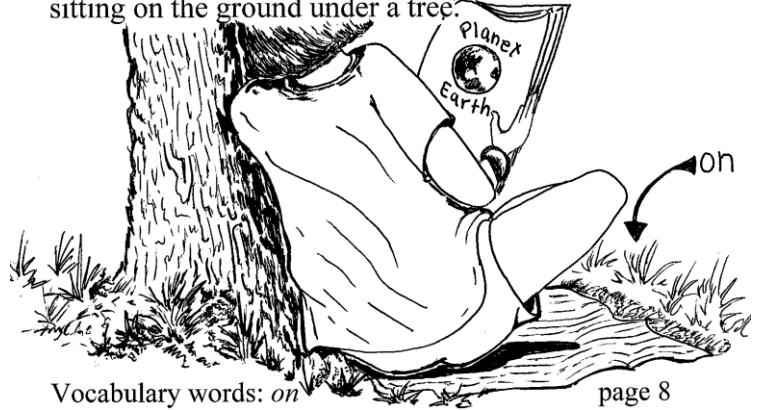

Vocabulary word: in

page 7

on

to be physically in contact with and supported by a surface

My family and I live *on* the planet Earth. It is like sitting on the ground under a tree.

Vocabulary words: *on*

page 8
