Economic Development

Technology, Business Ethics and Practices, Religious Redevelopment

CONSIDER A CONSTANT GROWTH

IN

DIRECTIVES

NEW DIRECTIVES

New directives include anything presented new or introduced to the society.

Within business social economic station states defined are present in the business ethic practice whether written out or most likely not but are present in office practice throughout companies.

Application of a structured business practice in relationship to the economic social structure redefines the *new* in social order station states of a practiced forum of law and ethics.

Sales practices that include positive and negative results-

business relies on the supply and demand representation or the extra are also affected

THE PARADOX

Using the definition of THE
PARADOX=

statement that is seemingly
contradictory or opposed
to common sense and yet is
perhaps TRUE.

PARADOXES

THE QUESTION & RESULT

Which are Paradoxes in Democracy, Socialism, Capitalism, Communism, Anarchy, Hierarchy, and Utopianism.

Paradoxes are formed at this point
(the contradictory or opposed to common sense)
combining of elements that define a social order
are trialed.

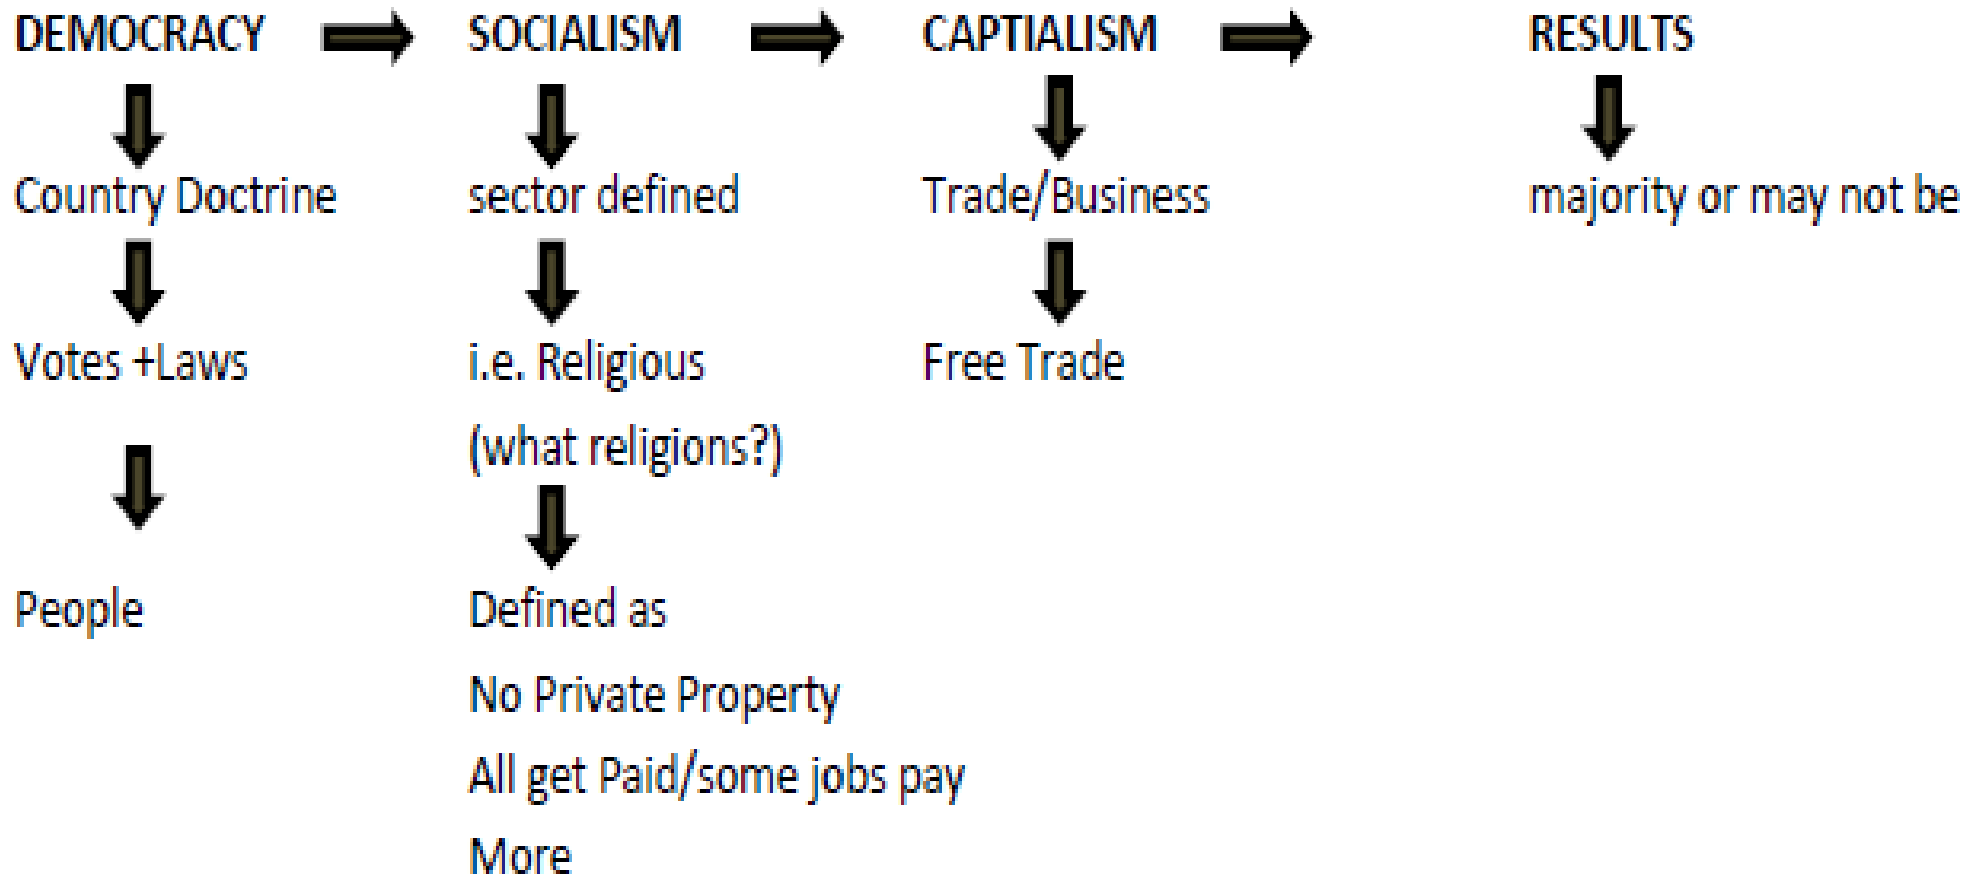

What combination works to create a result desired
to *maintain or advance yet keep a defined venue.*

Transitional phases take place at this defined point.

Paradoxes

i.e. one example
