Three Pairs  
of Mittens  
That Lost  
Their Little  
Kittens

There were  
three pairs of  
mittens that  
lost their little  
kittens.

Where's my  
little kitten?

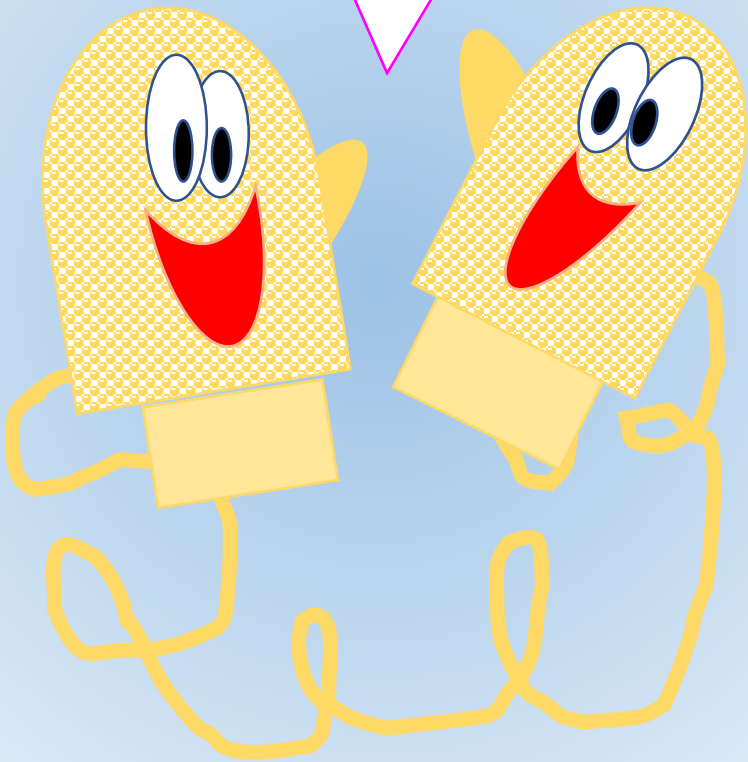

This is first pair of mittens  
that lost a little kitten.

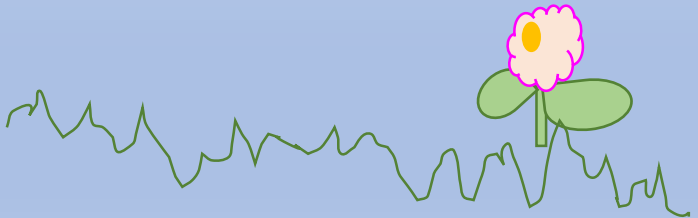

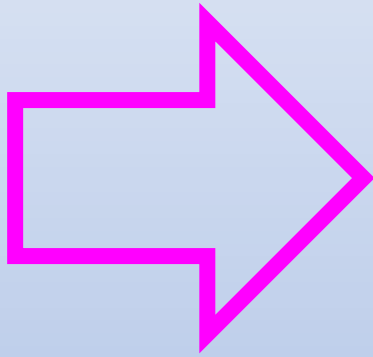

This is second pair of mittens  
that lost a little kitten.

Where's my  
little kitten?

This is third pair of mittens  
that lost a little kitten.

One pair of  
mittens waited  
in the washer  
to be found by  
a little kitten.

We are hiding!

We are waiting  
here for the little  
kitten to find us.

Another pair of  
mittens hung out  
on the cloths line  
waited for a little  
kitten. That pair of  
mittens was not  
hiding from a little  
kitten.

We are  
not hiding!

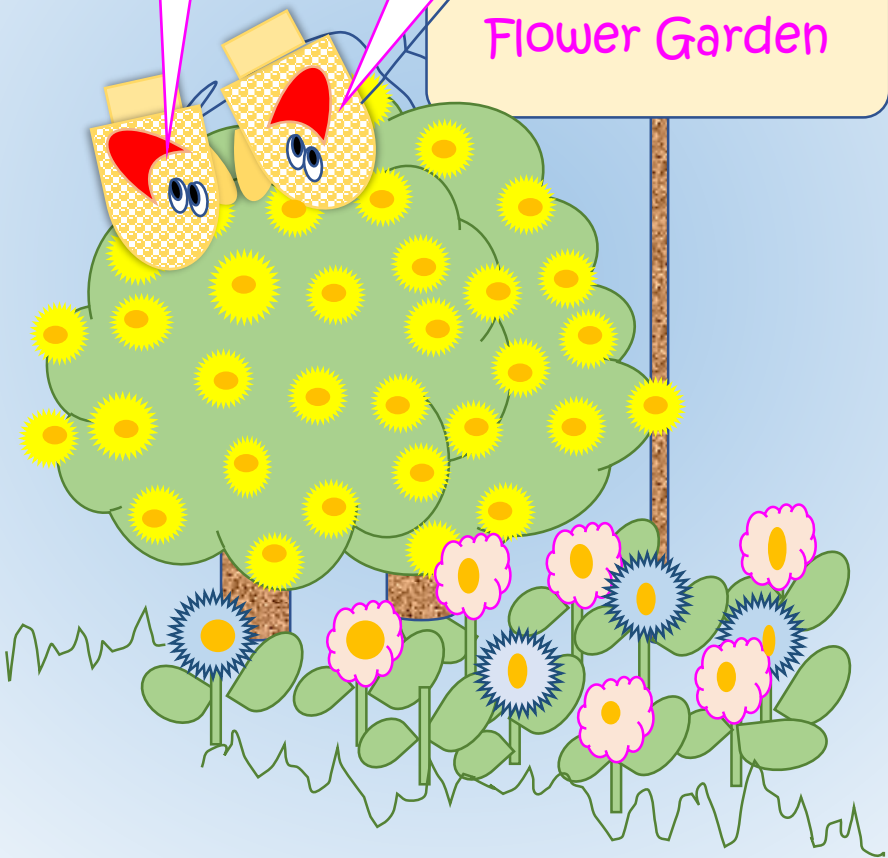

We will wait  
here for the  
little kitten  
to find us!

Then there was another pair of mittens that waited for a little kitten in the garden. That pair of mittens was not hiding either from a little kitten.

We are not hiding!

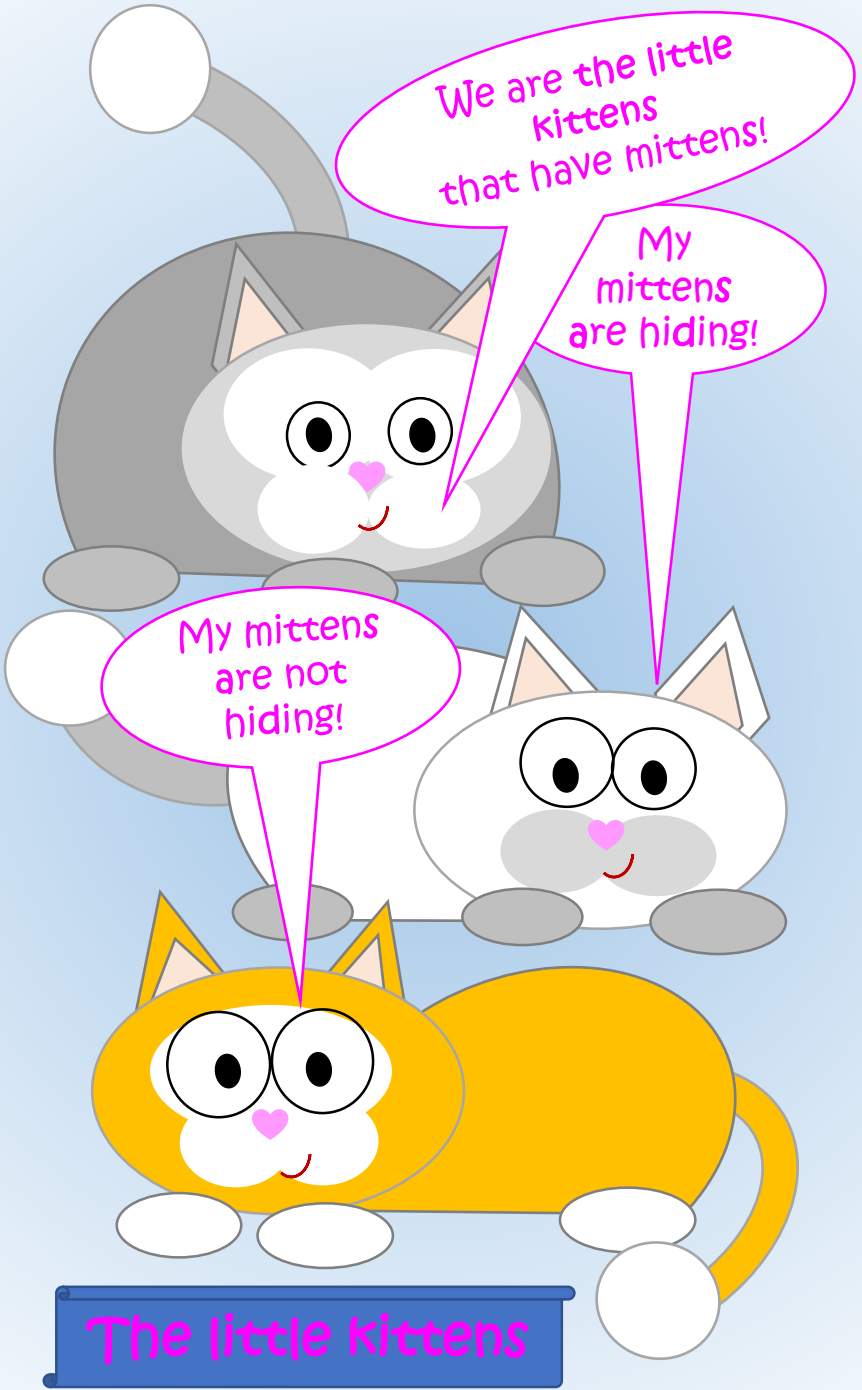

We will wait here for the little kitten to find us!

Flower Garden

But, where were  
the little kittens  
that needed to find  
their mittens?

We are the little  
kittens  
that have mittens!

My  
mittens  
are hiding!

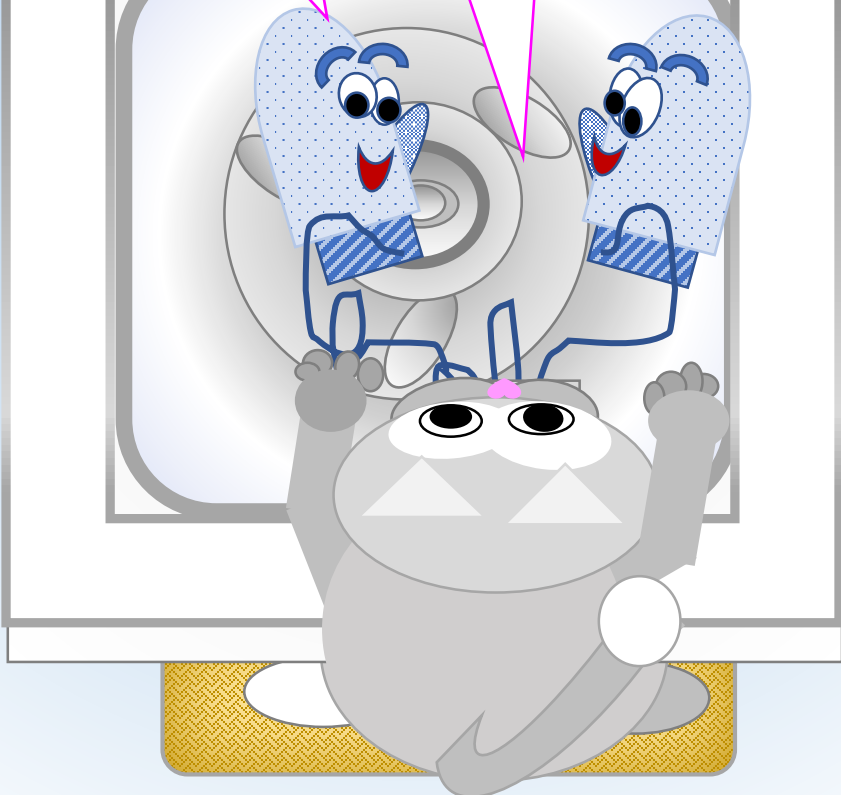

My mittens  
are not  
hiding!

The little Kittens

When the pair of  
mittens went in  
search of a little  
kitten, the washer  
pair of mittens  
stopped hiding in the  
washer from the  
little kittens. That  
pair of mittens had  
help from a  
neighbor little Kitten.

We hid here.  
We are going in search of our little kitten.

This is the neighbor little kitten that will help us find our little kitten!

The neighbor little  
kitten went in  
search of the  
other two little  
kittens.

Meow! I'll help  
these mittens in  
their search for a  
little kitten

We are  
going in  
search of  
our little  
kitten.

When the pair of mittens from the cloths line went in search of a little kitten, it was the little neighbor kitten that grabbed the cloths line pair of mittens. Then the neighbor little kitten continued the search for the other two little kittens.

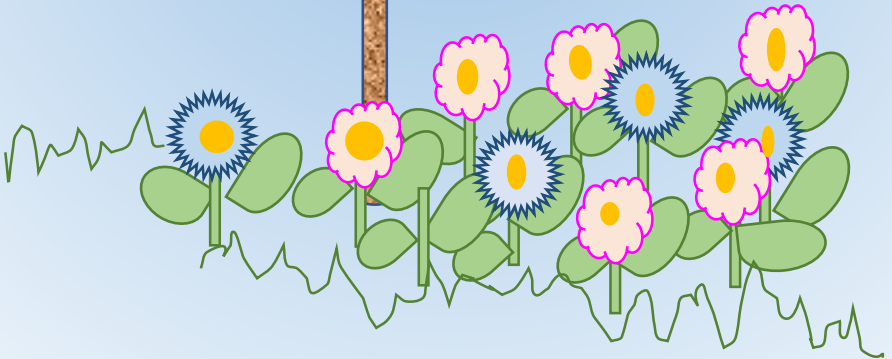

Meow! I'll help these mittens too in their search for a little kitten! I'm going to the flower garden.

We are going in search of our little kitten too!

When the garden pair  
of mittens was tried  
on by a little kitten,  
the garden was where  
the neighbor little  
kitten gave the  
washer pair of  
mittens to another  
little kitten.

Flower Garden

Did the  
mittens all  
find the  
three little  
kittens?

The  
Answer

...

# Flower Garden

Riddle Answer:  
*'Three Pairs of Mittens That  
Lost Their Kittens'*

Yes, all three pairs of mittens found all three little kittens. The washer mittens and the line mittens were picked up by the neighbor kitten. The neighbor kitten gave mittens to the one kitten at the garden that did not pick up the garden mittens. The garden mittens were picked up by the kitten in garden. The neighbor got a pair of mittens, the garden kitten got a pair of mittens and the other kitten at the garden got a pair of mittens. All the mittens found the three little kittens.

The End

MEOW!
