Description and Purpose  
Methodology  
PreReader  
Sentence Story in a Story

'Cartoon Mouse' PreReader Product Volume 22 was designed as an assisted learning aide in word recognition and beginning comprehension through visual representation-to understand and to be able to read a complete sentence with comprehension. In this Pre-Reader the sentence comprehension is also to put together several sentences that read to the reader a story-sentence story with a complete story combining all sentences to give the reader additional information for a bigger story.

*Why's there no picture on the cover of the book.* The books are designed so that the reader will remember the word to read or reread the book. Comprehension defined as understanding the meaning of what is written.

These books are *not sight word books* and *not memorization books*. They are comprehension books. Books written for understanding the meaning. The PreReader books are designed with the use of sight words in areas. But should not be recognized as a sight word book but the very beginning of comprehension. The illustrations are used in association of *meaning of comprehension* for a sentence story i.e. illustration with word association of what also the word can represent in association but not represent in direct meaning. In example: She can be represented in the story as shown as part of something associated with i.e. dress. Dress equal girl and/or a boy can be represented as a pair of tux pants i.e. tux pants equal boy.

Defined i.e. equals 'in example'

*May they learn the right things to succeed in life  
before they learn the wrong things.*
