To bring reflection of the year and years previous of hopes that a different path with a different directive will advance oneself and others. To bring/build about a brick lain bridge for all to travel- a route on a journey into a walk that those alive will pull the hope and prayer that God prays back to us from above using our 'Free Will' towards many steps forward without steps back. Please hear God to step forward for yourself and others to get closer to peace upon the earth for all. God be with us all! May we choose to build the forward paths in time ahead. Have a happy and blessed New Year 2016!
